

### **Special Programmes for advanced learners and slow learners conducted by Govt. Hnahthial College during 2020-2021**

The institution assesses the learning levels of the students through internal continuous assessment by conducting internal tests, written assignments, assignment presentations, class performance etc. Internal assignment tasks are framed to include usage of library facilities, ICT as far as possible. The institution identifies the students as slow learners and advanced learners based on the internal test performances, class participation, assignments, seminar etc.

The institution practiced mentoring system, and through this mentor-mentee system, all kinds of support are provided to the slow learners. The mentor also connects the weak learners to the subject-concerned teachers. Practices such as revisions of previous years' question papers and remedial classes for slow learners having backlog papers in previous semesters/years university examinations are arranged if necessary. Revision classes are also being taken up if required after completion of the entire syllabus for a better understanding. Students' performance in internal test and assignments are also reviewed and feedback is given by the teachers to help and make them improve in test and their assignments.
